C.—Charlotte.	O.—New Orleans.
C. C.—Carson City.	S.—San Francisco.
D.—Dahlonaga.	Without Letter—Philadelphia.

CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. These are only conditions under which bids will be received.

Coins and medals are sold at so much **per PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c. up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy.

All coins, etc., are genuine unless otherwise described.

My charge for executing bids will be 5 per cent. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

Priced catalogue of this sale sent for 75 cents cash in advance.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

Ancient Babylonian Clay Tablets, Seals, Egyptian Scarabs, Beads, Greek and Roman Necklaces, Etc.

OLD BABYLONIAN TEMPLE RECORDS FROM TELLO.

(Made on Baked Clay Tablets.)

These cuneiform tablets belong to the find made by Ernst de Sarzec, at Mosul, Tello, near Shatra, in 1895. They were found buried under a small elevation, about 200 yards from the ruins of the buildings of the most kings of Babylonia. He found two groups of rectangular galleries built of crude bricks, in which these tablets were arranged in five or six layers. They were regular business archives. The excavations were afterwards plundered by the natives and the tablets sold. All were inscribed by means of a three cornered stylus and then baked; some were flattened by means of a seal rolled over the inscription, before being baked. The collection is assigned to the late Dynasty of Ur, 2700-2400 B. C. They are reckoned from the year of the year after a certain king succeeded to the throne, or from a year in which a certain important city was destroyed, burned, or conquered, or from some important occurrence of the King's reign. The tablets refer to the administration of large temple properties, to agriculture and stock raising, to trade, commerce and industry. They contain receipts expense lists, pay lists, income lists, lists of animals (temple herds), lists of officials or workmen, account lists, etc. All testify to the eminently agricultural and pastoral character of this ancient principality, centuries before Abraham's Time.

These tablets can each be full deciphered, by a noted authority who has written a book on the subject, and for this work Mr. Elder will charge \$1.25.

- 507 Large Oblong tablet, size 3 1/4 x 2 inches, covered with clear inscription. Fine specimen.

- 508 Large Oblong tablet, covered with much writing, slightly chipped at the side, 4x2 inches
